DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,098,280, granted to Kamperman et al (hereafter Kamperman).

Kamperman discloses, referring to figures 1 and 2, a substrate (bottom layer of reference 3) having a through hole with conductive material on the side walls, a first conductive layer (shown not specifically referenced) with a portion above the through hole, sealed to the conductive material with a metallurgical diffusion bond, a second conductive layer (5) having a portion over the through hole and sealed to the conductive material with a metallurgical diffusion bond, a dielectric layer (top layer of reference 3) having a through hole with a second conductive material on the side walls positioned on, and electrically connected to the first conductive layer [claim 21], further including a chip (11) on the second conductive material [claim 22].

Response to Arguments

Applicant's arguments with respect to claims 21 and 22 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 23-29 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
